OPTIONAL EXTRAS

Floor Bearers

Pressure-treated 3" x 2" timber bearers to lift and protect the floor. On their own they are NOT suitable as a substitute for a prepared level base.

Tanalised Floor

A pressure-treated timber floor will extend the life of your building and when used together with tanalised timber floor bearers, gives the best possible protection to your building.

Toughened Safety Glass

For the safety conscious, this upgrade from standard glazing to toughened glass will give peace of mind and increase security.

Heavy-duty Shelving

Substantial tanalised timber shelves in single or double tier to increase storage space

Timber Slatted Roof

Enhance the appearance and protect your building with tanalised slatted roof panels fitted on top of felt roof.
